

Leadership Team Nominee – Lauren Dorn

Lauren grew up in Sheridan, IN and studied Athletic Training (Sports Medicine) both in undergrad at Purdue University and graduate school at Indiana University (although she doesn't broadcast this while living in Lafayette ;) While in grad school, she worked as an athletic trainer at Bloomington North High School, then moved to Crawfordsville in 2014 and worked at Wabash College for eight years. She now works for Franciscan Health Sports Medicine in Lafayette, and gets to serve the Greater

Lafayette community in various outreach programs. Helping people to navigate orthopedic injuries and teaching them how to take care of their bodies has always been a passion of hers.

Lauren met her husband Bobby Dorn in the fall of 2019 and married in April 2021. Getting engaged and wedding planning in the middle of a pandemic was an interesting experience and has always been a great conversation starter. They currently live in Lafayette with their mischievous cat.

Lauren grew up in the church and at the age of 13, she accepted the Lord as her Savior and then learned what it meant to follow Him as a freshman in college. Getting plugged into a church was never an issue for this extrovert and being involved in the community wherever she lived helped her to feel more grounded. After serving in a church in Crawfordsville for several years, she came to Riverside as she started dating Bobby.

When she's not at work or church, you can find Lauren hiking through nature with her husband, spending time with family, grabbing coffee while catching up with friends, and trying to finish her crochet blanket.
